

On The Thinking of Bob Parr

Mel Levy

*Department of Chemistry and Quantum Theory Group Tulane University
New Orleans, Louisiana 70118*

Through collaborations with Bob Parr on papers that were published over a period of ten years, I enjoyed his enthusiasm, creativity, talent, and unselfishness. He was also thoroughly human.

I shall discuss Bob's thinking and actions as the research and writing progressed. The influence of unpublished work shall also be discussed.

There are surprises.
